Why Choose Faculty of Medicine at UPH

At UPH, we are dedicated to preparing our students to excel as world-class medical professionals. Our innovative Problem-Based Learning curriculum seamlessly integrates fundamental medical and clinical sciences, enhancing skills through block based teaching. Our comprehensive education equips students for a lifelong journey of self directed learning and encourages early involvement in patient care.

Our Medicine Study program is part of UPH's flagship Medical Sciences Cluster which comprises of Nursing, Pharmacy, Medical Laboratory Technology, and Psychology which fosters collaboration in research and practices within this cluster. In partnership with Siloam Hospital Groups and the Mochtar Riady Institute of Nanotechnology, UPH has established the Medical Sciences Cluster to advance Evidence-Based Clinical Practices, Medical Education, Clinical Teaching, and Research.

Our Programs

DEGREE

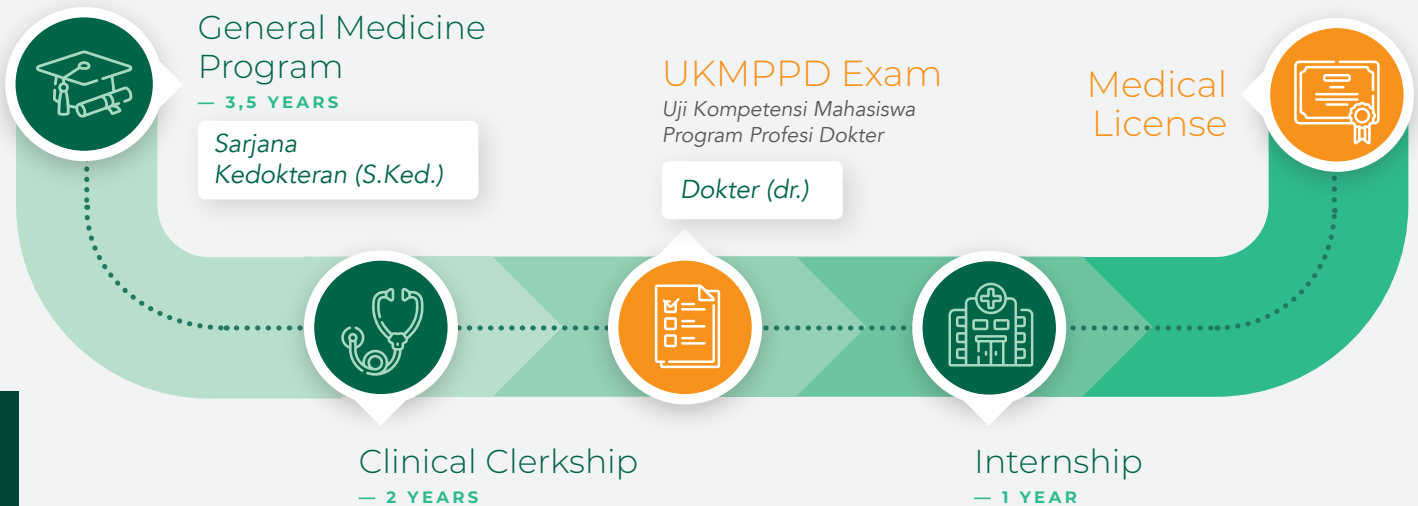

Bachelor of Medicine (S.Ked); Medical Doctor (dr.)

CAREER OPPORTUNITIES

- Clinical Specialists
- General Practitioners
- Health Administrators
- Medical Educators
- Researchers

OUTSTANDING FEATURES

- Integrated Curriculum with Problem Based Learning Method
- Interdisciplinary Foundational Program
- Interprofessional Education
- Curriculum Highlights: Adolescent Health Program, Health Informatics System, Health Entrepreneurship, Palliative Oncology, Neuroemergency

General Medicine Program

Bachelor of Medicine: students have seven semesters (3.5 years) at UPH and graduate with a Bachelor of Medicine Degree.

The Medical Doctor Profession Program: students take a clinical clerkship in affiliated hospitals for 4 semesters (2 years) and graduate with a Dokter (dr.) degree. The curriculum meets requirements for the National Standard Competency Based SKDI and the standard for the national curriculum.

Clinical Clerkship

Final 4 (Four) Semesters “Hands-On” Clerkship at Siloam Hospitals Group with International alliances and other network hospitals.

Program includes placement at Rumah Sakit Umum Siloam: A dedicated Three-hundred-bed general hospital at the Medical Campus at Lippo Village.

Exchange placement is available at international and rural Indonesian postings for enhanced learning.

Enrichment Program

UPH Faculty of Medicine, through the Medical Student Summer Enrichment Program (MSSEO), offers medical students opportunity to apply their developing knowledge and skills to serve communities in Indonesia and overseas.

It is a voluntary program for students interested in serving communities during their summer holidays for 4-6 weeks. The programmes enhance the development of qualities needed to be a physician such as compassion, honesty, integrity and social justice. The program exposes them to the various pressures and inequalities of health services faced by many people today. It also teaches them not only to be physicians but also scholars, health advocates, collaborators, and leaders.

“we are dedicated to preparing our students to excel as world-class medical professionals.”
