Discover the Heart of Psychology: Where Faith Meets Human Understanding

The Psychology Program at Universitas Pelita Harapan (UPH) offers a 3.5-year experience that integrates academic excellence with personal development. It emphasizes the relational and holistic aspects of human beings, focusing on connections with oneself, and others.

PSYCHOLOGY

At UPH's Psychology program, you're not just learning from books—you're diving deep into the real world of the human mind. Whether you're passionate about helping others through Clinical Psychology, want to explore how people grow and learn in Educational Psychology, or are drawn to understanding what makes people thrive in the workplace through Organizational Psychology, this program gives you the chance to shape your future purposefully. You'll get hands-on experience through internships, research labs, and even inter-professional learning alongside med and physio students. Plus, with a Holistic foundation woven into your learning, you'll grow as a psychologist and a whole person ready to serve and lead with integrity.

Each concentration offers something special: in Clinical Psychology, you'll gain tools to support mental health challenges and provide early interventions through assessments and counseling. In Educational Psychology, you'll explore how to support students of all kinds, including neurodivergent learners, with real-world experience including under YPPH's network. And if you're into people, productivity, and workplace culture, Organizational Psychology is your gateway to becoming a sought-after HR or development consultant. With focused 12-credit blocks in each area, industry exposure, and strong career prospects, this program sets you up to thrive—whether you're headed toward a professional psychologist path or ready to jump straight into the world of work.

CLINICAL PSYCHOLOGY

Have a passion for mental health and dream of becoming a counselor or working closely with people to help them heal and grow? UPH's Clinical Psychology track is made for you. In this concentration, you'll dive into the world of psychodiagnostics—learning how to observe, assess, and interact with people through clinical interviews, trauma care, and counseling. You'll study alongside students from other health-related fields (like medicine and physiotherapy), gain hands-on experience at the Cornerstone Psychological Center, and participate in fundamental research at places like the RELASI Lab (more info: <https://relasi-lab.uph.edu>). Plus, you'll build a solid foundation around family and marriage issues—making you a well-rounded mental health professional, ready for careers in therapy, counseling,

Student Practicum at Counseling Lab

EDUCATIONAL PSYCHOLOGY

Having a passion for helping kids and teens thrive in school and life, the Educational Psychology track at UPH is made for you. This program dives into how students learn, behave, and grow—and teaches you how to support them through innovative classroom strategies, inclusive education for neurodivergent learners, and real-life internships at trusted schools. Thanks to UPH's strong school network, you'll gain firsthand experience and mentorship to prepare for careers as a school counselor, child psychologist, or mental health advocate. With a blend of psychology, education, and Christian values, this program shapes future change-makers ready to make a difference in the next generation's lives.

ORGANIZATIONAL PSYCHOLOGY

Curious about what makes people thrive at work and how organizations can improve. In that case, the Industrial-Organizational Psychology track at UPH is your gateway to shaping healthier, more productive workplaces. You'll explore everything from how teams work together, spotting the right talent, building strong company cultures, and even how labor laws impact day-to-day operations. With real internship experiences at top companies and classes that connect theory with practical, everyday work challenges, you'll be prepped to step into careers like HR specialist, performance analyst, or organizational consultant. Plus, you'll learn it all through a holistic Christian lens, giving you the foundation to grow professionally and personally.

Active & Engaging Learning Atmosphere

YOUR MENTAL HEALTH SUPPORT CIRCLE

Breakthrough For Life (BFL) Center BFL is a leading institution that fosters holistic well-being and empowers individuals to reach their full potential.
